

# Cylindrical open head drums 215 liters with/without PE-Inliner and PET/PP cover

**07.06 E**

## Advantages

- UN homologation for solid and fluid dangerous goods
- Compliance with 94/62 EC
- Coatings also can comply with EC 1895/2005, AP 96 (5) EC, BAG, BGA, FDA, EU 90.128/EEC
- Full automatic closure ring with Jet-Ring system
- Fully drainable
- Materials recyclable without any problems when empty
- It is possible to reuse the drum by changing liner and cover

## Construction

- Body overlapped welded, bottom seamed to body with injected sealing compound
- Liner version enables the drum to empty, leaving less residues than a standard drum

- Closing ring galvanized or stainless steel, tamper evident mount in the outer lever handle, plastic lid with PUR sealing
- 2" und 3/4" bungs possible in the metal lid as well as 2 x 2" in plastic lid
- Different hoops and corrugations possible
- Absolute shrink free mounting of the inliner upon demand

## Materials

- Mild steel St 12.03, galvanized or stainless steel
- PE-Inliner blow moulded, cover stretched with PU sealing compound flowed in

## Surface treatment

- Galvanized or lacquered
- Optional lacquer lining inside/outside for aggressive chemicals
- Exactly suitable for your products
- On line silk screening on body and top available

## Remarks

- Designed for optimum strength and volume
- Rational filling and handling
- Ideal for emptying with piston pump

## Quality management

- ISO 9001:2000
